GEORGE A. PETTIBONE IS REFUSED BAIL

Bond for Moyer Not Yet Completed; Delay in Securing Cash.

BOISE, Ida., July 30.—Formal application was made in the District court today to have George A. Pettibone admitted to bail. The motion was submitted without argument, and was promptly denied by Judge Wood. It was announced that the bond for Charles H. Moyer would be ready by noon today. It is in the hands of the court and will be signed by Timothy Reagan, president of the First National bank of Boise. The bond is guaranteed by \$25,000 cash on deposit by the Butte Mont. local of the Western Federation of Miners.

Up to a late hour this afternoon bond had not been given for Charles H. Moyer, president of the Western Federation of Miners, and it began to look as though he would have to spend another night in jail. The delay is said to be due to a decision to put up a straight cash bond rather than a personal bond guaranteed by cash, as proposed this morning.

DELMAS ASKS FOR INSTRUCTIONS

BOISE, Ida., July 30.—D. M. Delmas, the attorney who is defending Glass and others at San Francisco, charged with bribing the Supervisors of that city, last night wired the County Clerk here to send him by wire a copy of the instructions given the jury in the Haywood case by Judge Wood. It was sent and the telegraph tolls amounted to \$360. The laws of Idaho and California are the same relative to conspiracy and no doubt Delmas thought there would be something in the instructions that he could use in his defense.

DOVE LAW WILL BE STRICTLY ENFORCED

Sportsmen Look Upon Law as a Huge Joke; It Protects Game for Outsiders.

The sportsmen will be sorry to hear that the dove law which opened August 1 will be strictly enforced this season and anyone caught with more than eight doves will be prosecuted to the full extent of the law. Sportsmen of other States are having the laugh on the local shooters as regards several sections of the Utah fish and game laws. The dove law is one of those sections which provides for a limit of eight doves and also provides for eight grouse and one grouse is larger than the eight doves, but this particular section does not provide for a limit on the grouse. The boys of Salt Lake county will get the worst of this law, inasmuch as the deputies of this county are continually after violators.

MAKING FIGHT ON POWDER TRUST

The Government Files Petitions Against Corporations Manufacturing Explosives.

UNLAWFUL COMBINATION TO RESTRICT TRADE CHARGED

Court Is Asked to Determine If Receivers Shall Take Possession of Property.

WASHINGTON, July 30.—The Government today filed in the United States circuit court at Washington, Del., a petition against E. I. Dupont De Nemours & Co., the E. I. Dupont De Nemours Powder company, of New Jersey, and twenty-four other corporations and seventeen individuals connected with the twenty-six corporations which are made defendants in the petition.

The petition relates that all of the defendants are engaged in interstate trade and commerce in gun powder and other high explosives, and are violating the act of July 2, 1890, known as the Sherman anti-trust act. It seeks to prevent and restrain the unlawful existing agreements, contracts, combinations, and conspiracies in restraint of such trade and commerce; to prevent and restrain the attempts upon the part of the defendants to monopolize such trade and commerce; and to dissolve the existing monopolies therein.

The court is asked to determine whether public interests will be better subserved by the appointment of receivers to take possession of the property of the alleged trusts, with a view to bringing about conditions in trade and commerce that will be harmonious with the law. The prayer in this respect is identical with that in the so-called tobacco trust petition.

Details of Petition.

It is stated in the petition that in 1872 all except three of the concerns selling high explosives in the United States organized, with the object of regulating prices at which such commodities should be sold and of driving the other corporations out of business by unfair competitive methods. This association enjoyed an uninterrupted operation, it is said, until 1881, when a new agreement was entered into with the object of preventing new manufacturers from engaging in powder business. In the meantime, the three "would-be" competitors are declared to have been compelled to join the monopoly. It is shown that there were succeeding associations in 1888, 1891, and 1896, each with the same general object and composed of the same members and their successors. The 1896 association continued until 1902 and during the whole period of time from 1872 until 1902, the members of these associations, it is asserted, by various unfair business methods, substantially all competitors out of the powder business until at the latter date they controlled 95 per cent thereof.

The petition recites many of the operations of the so-called powder trust leading up to the organization in May, 1902, under the laws of the State of New Jersey, of the E. I. Dupont De Nemours Powder company, with a capital stock of \$50,000,000, as a holding company for the purpose of acquiring the capital stocks of every corporation in the United States engaged in manufacturing and dealing in high explosives.

One Company Controls.

This New Jersey holding company, it is alleged, did acquire control of the companies operating in high explosives in the United States, until all of the business of shipping and selling such commodities of substantially seventy companies, which had from time to time since 1872 been separate competing concerns, and now being carried on by three gigantic operating companies—namely, the Eastern DuPont company and the E. I. Dupont De Nemours Powder company of Delaware, and the Ladin & Rand Powder company.

The defendants, it is alleged, already have a complete monopoly of the production and distribution of smokeless powder.

The Government asks in its prayer for relief that these operating companies be enjoined and restrained from operating and engaging in interstate commerce in the United States or that receivers be appointed to take over their business.

The Government also asks that certain capital stock in other companies by the various holding companies shall be adjudged unlawful and void and that the defendants shall be restrained from carrying on alleged unfair competition against twenty-three independent firms which at the time of the filing of the petition were engaged in the manufacture, shipment and sale of blasting powder and dynamite in the United States in lawful competition with the defendants.
